

IMAX Corporation Reports Third Quarter 2021 Results

October 28, 2021

HIGHLIGHTS

- IMAX reaches turning point at global box office -- breaking record for highest grossing month of October, delivering September grosses above 2019, and generating \$142 million (+100% YoY) in Global Box Office for the Third Quarter
 - The Company delivers strongest Global Box Office, Revenue, and Gross Margin since 2019, with blockbusters and consumers returning to cinemas in force and studios recommitting to exclusive theatrical releases
 - IMAX continues to improve operating results demonstrating the strength of its global asset-lite licensing model and ability to capitalize on box office momentum
- The Company is well-positioned to benefit from the continued evolution of the theatrical marketplace, including increased globalization of the box office, further emphasis on tentpole releases, and compressed demand of 45-day theatrical window
- IMAX expects accelerating pipeline of blockbusters set for exclusive theatrical release to further build consumer momentum worldwide, with a wealth of franchise tentpole films slated in Q4 of 2021 and 2022

NEW YORK, Oct. 28, 2021 /PRNewswire/ -- IMAX Corporation (NYSE: IMAX) today reported financial results for the third quarter of 2021, including: its strongest Global Box Office, Revenue, and Gross Margin in the pandemic era; a sharp reduction in net loss attributable to common shareholders from (\$47.2) to (\$8.4) million, reported loss per share from (\$0.80) to (\$0.14), and adjusted loss per share from (\$0.75) to (\$0.08); and solid improvement in adjusted EBITDA which increased from (\$0.3) to \$13.1 million — demonstrating a significant turning point in the global box office with pent up consumer demand for *The IMAX Experience*® continuing to gain momentum as theaters reopen around the world.

"The third quarter was a major turning point for IMAX. We delivered over \$142 million in Global Box Office, a clear sign of significant pent up consumer demand with momentum accelerating into a pre-pandemic September performance and all-time Company record in October, which is on track to be one of the top ten months in the company's history," said Richard L. Gelfond, CEO of IMAX Corporation. "The power of the IMAX theatrical window for blockbuster films is clear as we continue to draw moviegoers to the theaters, gain market share, and grow our relationships with local exhibitors, studios, and filmmakers."

"IMAX's asset-lite model again proved to be a strong differentiator, helping us to deliver year-over-year growth in revenue and achieve another quarter of improved operating results. These results are also reflected in our balance sheet, where our excess liquidity provides security and capital allocation flexibility."

"As anticipated, the domestic market continued its recovery with sequential growth in box office. Local language box office was also a strong performer which already eclipsed our record breaking 2019 local language box office. We are seeing greater confidence in the overall slate as well, as the IMAX-friendly franchise-heavy schedule has solidified through 2022."

"We feel confident that the table is set for a continued rebound in domestic and international blockbuster moviegoing which is reflected in our decision to opportunistically repurchase shares. With solid operating momentum, strong market share and multiple tentpole films set to be released in the remainder Q4 and 2022, IMAX is well positioned to deliver and strengthen our position as one of the world's premier entertainment experience."

IMAX Technology Network

- IMAX Technology Network revenues increased to \$25.6 million in the third quarter of 2021, compared to \$11.4 million in the prior-year period. The continued reopening of the Company's network, particularly in the US, and strong performance of Hollywood releases drove the increase in gross box office and revenue.
- Gross margin for the IMAX Technology Network of \$10.9 million in the third quarter of 2021 increased by more than \$10 million as improved box office performance drove higher revenue and margin expansion.

IMAX Technology Sales and Maintenance

- IMAX Technology Sales and Maintenance revenues increased to \$27.7 million in the third quarter of 2021, compared with \$23.7 million in the prior year period. The increase in revenue was the result of higher IMAX Maintenance revenue associated with the continued reopening of the Company's global network offset by a fewer number of IMAX theater system installations.
- Total gross margin for IMAX Technology Sales and Maintenance increased to \$14.9 million compared to \$9.4 million in the prior year period. The increase in gross margin was the result of higher maintenance revenue partially offset by an increase in associated costs as a result of a return to more normal business activities.

Cash Balances and Outstanding Debt

Total cash and cash equivalents as of September 30, 2021 were \$193.0 million. Total debt, excluding deferred financing costs was \$241.0 million as of September 30, 2021.

Share Count and Capital Return

The weighted average basic and diluted shares outstanding in the third quarter of 2021 increased to 59.2 million, compared to 58.9 million in the third quarter of 2020. During the third quarter of 2021, the Company repurchased 317 thousand of its shares at an average price of \$14.53 for a total of \$4.6 million. IMAX China repurchased 3.6 million shares at an average price of \$1.40 per share for a total of \$5 million. A total of \$84.8 million remains available under the Company's outstanding share repurchase authorization, which was extended an additional year through to June 2022.

(1) Principally includes after-market sales of IMAX projection system parts and 3D glasses.

(2) IMAX DMR gross margin includes marketing costs of \$3.2 million and \$5.8 million, respectively, for the three and nine months ended September 30, 2021 (2020 —\$0.4 million and \$2.8 million, respectively). JRSA gross margin includes advertising, marketing and commission expense of \$0.8 million and \$1.9 million, respectively, for the three and nine months ended September 30, 2021 (2020 —\$0.7 million and \$1.3 million, respectively). IMAX Systems gross margin includes marketing and commission costs of \$0.3 million and \$0.9 million, respectively, for the three and nine months ended September 30, 2021 (2020 —\$0.6 million and \$1.0 million, respectively). Film Distribution segment gross margin includes marketing expense of \$nil and less than \$0.1 million, respectively, for the three and nine months ended September 30, 2021 (2020 —\$0.2 million and \$0.4 million, respectively).

(3) During the three and nine months ended September 30, 2020, Film Distribution segment results include impairment losses of \$5.4 million and \$9.9 million, respectively, to write-down the carrying value of certain documentary and alternative content film assets due to a decrease in projected box office totals and related revenues based on management's regular quarterly recoverability assessments. No such charges incurred in the three and nine months ended September 30, 2021.

IMAX CORPORATION
NON-GAAP FINANCIAL MEASURES
(in thousands of U.S. dollars)

In this release, the Company presents adjusted net loss attributable to common shareholders and adjusted net loss attributable to common shareholders per basic and diluted share, EBITDA, Adjusted EBITDA per Credit Facility, Adjusted EBITDA margin, and free cash flow as supplemental measures of the Company's performance, which are not recognized under U.S. GAAP. Adjusted net loss attributable to common shareholders and adjusted net loss attributable to common shareholders per basic and diluted share exclude, where applicable: (i) share-based compensation; (ii) COVID-19 government relief benefits, (iii) legal judgment and arbitration awards; (iv) realized and unrealized investment gains or losses, as well as the related tax impact of these adjustments, and (v) income taxes resulting from management's decision to no longer indefinitely reinvest the historical earnings of certain foreign subsidiaries.

The Company believes that these non-GAAP financial measures are important supplemental measures that allow management and users of the Company's financial statements to view operating trends and analyze controllable operating performance on a comparable basis between periods without the after-tax impact of share-based compensation and certain unusual items included in net loss attributable to common shareholders. Although share-based compensation is an important aspect of the Company's employee and executive compensation packages, it is a non-cash expense and is excluded from certain internal business performance measures.

A reconciliation from net loss attributable to common shareholders and the associated per share amounts to adjusted net loss attributable to common shareholders and adjusted net loss attributable to common shareholders per diluted share is presented in the table below. Net loss attributable to common shareholders and the associated per share amounts are the most directly comparable GAAP measures because they reflect the earnings relevant to the Company's shareholders, rather than the earnings attributable to non-controlling interests.

In addition to the non-GAAP financial measures discussed above, management also uses "EBITDA," as such term is defined in the Company's Credit Agreement, and which is referred to herein as "Adjusted EBITDA per Credit Facility." As allowed by the Credit Agreement, Adjusted EBITDA per Credit Facility includes adjustments in addition to the exclusion of interest, taxes, depreciation and amortization. Adjusted EBITDA per Credit Facility measure is presented to allow a more comprehensive analysis of the Company's operating performance and to provide additional information with respect to the Company's compliance against its Credit Agreement requirements when applicable. In addition, the Company believes that Adjusted EBITDA per Credit Facility presents relevant and useful information widely used by analysts, investors and other interested parties in the Company's industry to evaluate, assess and benchmark the Company's results.

EBITDA is defined as net income or loss excluding (i) income tax expense or benefit; (ii) interest expense, net of interest income; and (iii) depreciation and amortization, including film asset amortization. Adjusted EBITDA per Credit Facility is defined as EBITDA excluding: (i) share-based and other non-cash compensation; (ii) realized and unrealized investment gains or losses; (iii) write-downs, net of recoveries, including asset impairments and credit loss expense; (iv) legal judgment and arbitration awards; and (v) the gain or loss from equity accounted investments.

A reconciliation of net loss attributable to common shareholders, which is the most directly comparable GAAP measure, to EBITDA and Adjusted EBITDA per Credit Facility is presented in the table below. Net loss attributable to common shareholders is the most directly comparable GAAP measure because it reflects the earnings relevant to the Company's shareholders, rather than the earnings attributable to non-controlling interests.

Free cash flow is defined as cash provided by operating activities minus cash used in investing activities (from the Condensed Consolidated Statements of Cash Flows). Cash provided by operating activities consist of net (loss) income, plus depreciation and amortization, plus the change in deferred income taxes, plus other non-cash items, plus changes in working capital, less investment in film assets, plus other changes in operating assets and liabilities. Cash used in investing activities includes capital expenditures, acquisitions and other cash used in investing activities. Management views free cash flow, a non-GAAP measure, as a measure of the Company's

after-tax cash flow available to reduce debt, add to cash balances, and fund other financing activities. Free cash flow does not represent residual cash flow available for discretionary expenditures. A reconciliation of cash provided by operating activities to free cash flow is presented below.

These non-GAAP measures may not be comparable to similarly titled amounts reported by other companies. Additionally, the non-GAAP financial measures used by the Company should not be considered as a substitute for, or superior to, the comparable GAAP amounts.

Adjusted EBITDA per Credit Facility

(1) The Senior Secured Net Leverage Ratio is calculated using Adjusted EBITDA per Credit Facility determined on a trailing twelve-month basis. During the first quarter of 2021, the Company entered into the Second Amendment to the Credit Facility Agreement which, among other things, suspends the Senior Secured Net Leverage Ratio financial covenant in the Credit Agreement through the first quarter of 2022 and, once re-established, permits the Company to use EBITDA from the third and fourth quarters of 2019 in lieu of EBITDA for the corresponding quarters of 2021.

(2) The amortization of deferred financing costs is recorded within Interest Expense in the Condensed Consolidated Statements of Operations.
