NEW YORK and LOS ANGELES, Nov. 8, 2021 /PRNewswire/ -- For the first time ever, fans will be able to stream some of their favorite Marvel titles in IMAX's Expanded Aspect Ratio at home with **IMAX Enhanced on Disney+**, launching on November 12th as part of Disney's company-wide Disney+ Day global celebration.

The new collaboration was announced today by The Walt Disney Company (NYSE:DIS), IMAX Corporation (NYSE:IMAX), and DTS, a wholly-owned subsidiary of Xperi Holding Corporation (Nasdaq: XPER).

With IMAX Enhanced on Disney+:

- Subscribers will get more picture with IMAX's Expanded Aspect Ratio across 13 Marvel titles – all they need to do is hit play
- IMAX's Expanded Aspect Ratio is 1:90:1, which offers up to 26% more picture for select sequences – meaning more of the action is visible on screen, just as the filmmakers intended
- In the future, the collaboration will deliver even more enhanced audio and visual technology to Disney+, including immersive IMAX signature sound by DTS

The 13 titles available at launch include the Disney+ premiere of Marvel Studios' *Shang-Chi and The Legend of The Ten Rings* on November 12th as well as other fan-favorite MCU movies like *Iron Man*, *Guardians of the Galaxy*, *Guardians of the Galaxy Vol. 2*, *Captain America: Civil War*, *Doctor Strange*, *Thor: Ragnarok*, *Black Panther*, *Avengers: Infinity War*, *Ant-Man and The Wasp*, *Captain Marvel*, *Avengers: Endgame*, and *Black Widow* (content availability varies by region).

"For more than a decade, IMAX has helped filmmakers take fans across the Marvel Cinematic Universe in theaters and now that epic journey crosses into a new world: the home," said Rich Gelfond, CEO of IMAX. "IMAX, Disney, and Marvel Studios are giving the fans what they want: the most immersive viewing experience throughout the life of a Marvel Studios film, from exclusive theatrical release to the library at-home where they can now watch the Avengers assemble with more picture than ever before."

"Disney, Marvel Studios, and IMAX have collaborated for years to bring the world's most popular films to the big screen, and on Friday we'll start to bring IMAX technology to subscribers with IMAX Enhanced viewing in the Disney+ app," said Michael Paull, President of Disney+ and ESPN+. "We're thrilled to create new value for Marvel fans and audiences on Disney+, and we're looking forward to offering even more IMAX Enhanced functionality in the future."

"We are thrilled that fans of the MCU will soon have the opportunity to experience IMAX's Expanded Aspect Ratio, in their own homes with the launch of IMAX Enhanced on Disney+," said Jon Kirchner, chief executive officer of Xperi. "DTS is proud to be an integral part of IMAX Enhanced and we are looking forward to unlocking more exciting technology for Disney+ subscribers in the future, which will include immersive IMAX signature sound by DTS."

IMAX is the world's most immersive canvas for filmmakers to bring their visions to audiences around the globe. With IMAX Expanded Aspect Ratio, filmmakers can create a more immersive experience in theatres and now in the home, allowing audiences to see more of the action. Marvel fans have long called for more of The IMAX Experience at home, and now with certain IMAX Enhanced features on Disney+, subscribers will get what they have been waiting for - additional image at home as intended by the incredible teams behind some of the world's most popular films.

With IMAX Enhanced, IMAX and technology partner DTS will enable content that can be viewed in-home with the highest fidelity, which ensures that filmmakers' creative intent is fully optimized for an IMAX-quality presentation. Disney+ is the first major streaming service that will elevate the at-home viewing experience with IMAX Enhanced, rewarding its subscribers with new ways to re-experience the Marvel Cinematic Universe and beyond.

Today's announcement is the latest evolution in the storied relationship between IMAX and Marvel Studios, with audiences first entering the Marvel Cinematic Universe in IMAX in 2010.

Since then, the Marvel Cinematic Universe has earned well over \$1.6 billion across IMAX screens globally, making it the highest grossing franchise in IMAX history. *Avengers: Infinity War* and *Avengers: Endgame* were the first films shot entirely with IMAX digital cameras, and all titles available on November 12th feature select sequences in IMAX's Expanded Aspect Ratio.

Disney+ Day is a global celebration that will come to life across The Walt Disney Company on Friday, November 12th with new content releases, fan experiences, exclusive offers and more.
