Fourth-Quarter Segment Results

- Revenue from sales and sales-type leases was \$31.0 million in the fourth quarter of 2016, compared with \$33.0 million in the fourth quarter of 2015. The Company installed 23 full theatre systems under sales and sales-type lease arrangements in the most recent quarter, compared with the 24 full sales-type theatres the Company installed in the fourth quarter of 2015. The Company also recognized one laser upgrade under a sales-type lease arrangement in the most recent quarter, compared to two in the same period last year. Gross margin for sales and sales-type leases was 58.9% vs. 60.7% in the year ago period, primarily a result of lower margins from the installation of laser-based digital systems. The Company's margins on full, new sales and sales-type leases was 62.6% in the most recent quarter.
- Revenue from joint revenue-sharing arrangements was \$24.5 million in the quarter, compared with \$31.9 million in the prior-year period. During the quarter, the Company installed 46 new theatres under joint revenue-sharing arrangements, compared with 32 new theatres in the fourth quarter of 2015. The Company had 640 theatres operating under joint revenue-sharing arrangements as of Dec. 31, 2016, as compared to 529 theatres one year prior. Gross margin for joint revenue-sharing arrangements was 61.8%, compared to 67.7% in the prior-year period. Revenue and gross margin results primarily reflected lower box office revenue and FX headwinds.
- Production and DMR revenues were \$27.6 million in the fourth quarter of 2016, compared with \$31.9 million in the fourth quarter of 2015. Gross margin for the Production and DMR segment was 60.8%, compared to 68.9% in the prior-year period, primarily a result of lower box office revenue, higher marketing costs and FX headwinds.
- Gross margin across all segments in the fourth quarter of 2016 was 51.7%, compared to 60.2% in the fourth quarter of 2015, mainly due to lower box office, upfront costs associated with heightened installation activity and FX headwinds.
- Operating expenses (which includes SG&A and R&D, and excludes stock-based compensation) were \$28.7 million in the quarter, compared to \$29.2 million in the fourth quarter of 2015 and consistent with guidance disclosed on the Q3 2016 call.

"In terms of new business opportunities, we formed a ground-breaking partnership with Marvel and ABC to exclusively launch the first two episodes of the television series Marvel's *Inhumans* across the global IMAX network ahead of its premiere on ABC and in international markets later this year. We are excited to have an equity interest in the venture and we believe this approach could help facilitate quicker international syndication," Gelfond said.

"We've also taken a giant step forward in establishing location-based VR with the launch of our \$50 million VR content fund and several new innovative technology and content partnerships," he continued. "Last month, we opened our flagship pilot IMAX VR Centre in Los Angeles, which has already had more than 7,000 unique, satisfied visitors. We also signed agreements to open five new VR pilot centres in China, the U.K. and the U.S. by year-end. While this venture is still in its pilot phase, we are extremely encouraged by the initial results and look forward to getting the additional locations up and running over the coming months."

Non-GAAP Financial Measures:

In this release, the Company presents adjusted net income, adjusted net income per diluted share, adjusted net income attributable to common shareholders and adjusted net income attributable to common shareholders per diluted share as supplemental measures of performance of the Company, which are not recognized under U.S. GAAP. The Company presents adjusted net income and adjusted net income per diluted share because it believes that they are important supplemental measures of its comparable controllable operating performance and it wants to ensure that its investors fully understand the impact of its stock-based compensation (net of any related tax impact) on net income. In addition, the Company presents adjusted net income attributable to common shareholders and adjusted net income attributable to common shareholders per diluted share because it believes that they are important supplemental measures of its comparable financial results, and not including these measures could potentially distort the analysis of trends in business performance. Management uses these measures to review operating performance on a comparable basis from period to period. However, these non-GAAP measures may not be comparable to similarly titled amounts reported by other companies. Adjusted net income, adjusted net income per diluted share, adjusted net income attributable to common shareholders and adjusted net income attributable to common shareholders per diluted share should be considered in addition to, and not as a substitute for, net income and net income attributable to common shareholders and other measures of financial performance reported in accordance with U.S. GAAP.

The Credit Facility provides that the Company will be required at all times to satisfy a Minimum Liquidity Test (as defined in the Credit Agreement) of at least \$50.0 million. The Company is required to maintain a minimum level of "EBITDA" of \$100.0 million, as such term is defined in the Company's credit agreement (herein referred to as "Adjusted EBITDA" as the credit agreement includes additional adjustments beyond interest, taxes, depreciation and amortization). EBITDA and Adjusted EBITDA should not be construed as substitutes for net income or as better measures of liquidity than cash flow from operating activities determined in accordance with U.S. GAAP. The Company must also maintain a Maximum Total Leverage Ratio (as defined in the credit agreement) of 2.0:1.0, which requirement decreases to 1.75:1.0 on December 31, 2017. The Company was in compliance with all of these requirements at December 31, 2016. The Maximum Total Leverage Ratio was 0.23:1 as at December 31, 2016, where Total Debt (as defined in the credit agreement) is the sum of all obligations evidenced by notes, bonds, debentures or similar instruments and was \$27.7 million. Adjusted EBITDA is calculated as follows:
